

AQUATIC LIFE IS ON THE LINE

What's virtually invisible underwater, incredibly strong, can last up to 600 years in the marine environment, and responsible for countless fatalities of marine life?

Monofilament Fishing Line!

Discarded fishing line is hazardous to everyone.

Reel In And Recycle!

Recycle your line in collection bins located at tackle shops, marinas, and fishing piers or request a container for your favorite fishing spot by emailing info@goingcoastal.org
